Neem

Synonymous with health benefits, the Neem tree also purifies the air during nighttime by absorbing co2. It is believed that Neem should be planted inside the house, especially in the center of the court of the house, and the fact is scientifically true because it acts as a natural pesticide.

- Neem Plant has many benefits and is known for it's anti-bacterial properties.
- It is also used to purify the air and have a cure for various ailments.
- It also acts as a natural pesticide that is why advised to plant in the middle of the yard.
- It is also used as a hair and dental products.
- Neem tree is a tropical plant that is native to Bharat (India). Neem leaves and plant shoots are popularly known for their medicinal properties.

However, they grow as a tree but can be grown in the home as a bonsai. They release oxygen in the day as well as at night. Its fruits and seeds are used to get neem oil.

Neem oil is beneficial in organic pest control. Flowers, fruits, and shoots of neem plant are eaten as vegetables in India. Their products are used in Ayurvedic and Unani medicines.

BENEFITS

- From the extracts of neem leaves, oil is prepared which can be used as an anti-oxidant.
- Neem leaves possess anti-cancer properties that can fight against cancer-causing agents.
- They also help in maintaining healthy skin while also acting as a healing agent to all the cracks caused in the skin.

NEEM TREE

The presence of neem plants inside the home drives out positively & a healthy environment. Known as the best healers, neem tree leaves are used in curing many problems including bruises, cuts, burns since ancient times. According to Vastu, the neem plant should be placed in the North-West corner. It is said that if the air flowing through the neem leaves enters the master bedroom, it brings good health to the family. So place it right near an open window.
